

# CASCADE FLYER

Website <http://co-opa.com>

January 2021, Vol. 21, Issue 11

## **President's Message:**

Let me be the last one to wish you a Happy New Year. So far seems a lot like 2020. Blarg.

This month we'll try a Jitsi meeting at 6pm on the usual Third Thursday (21 January):

<https://meet.jit.si/CO-OPA>

Dial-in: +1.512.647.1431 PIN: 1337 0454 96#

Or use the Jitsi app on your phone or tablet:

<https://jitsi.org/downloads/>

We will still have a lot to share and discuss. There is news on the Bend Airport Master Plan, news about the Friends Of Bend Airport, and a Fly-out to plan. The weather forecast shows a break on Saturday. Partly Cloudy, high 42F, and light winds. The "swamp" shows weather coming in with the afternoon, but nice on our side. Where should we go?

## **Bend Airport Master Plan:**

There will be a public meeting about the Bend Airport Master Plan on February 11<sup>th</sup>. See page 2 for details.

## **Newsletter Inputs:**

Check out current and past CO-OPA newsletters, view our membership list and view hot aviation links on our website at:

<http://co-opa.com>

Please send comments and story ideas to:

[gem@rellim.com](mailto:gem@rellim.com)

## **Calendar:**

21 January – Monthly Meeting

23 January – Monthly Fly-out

18 February – Monthly Meeting

20 February – Monthly Fly-out

18 March – Monthly Meeting

20 March – Monthly Fly-out

## **FAA Webinar:**

In case you missed the Seattle Center live presentation about problems around Deschutes VOR and RDM, you can view it here:

[www.youtube.com/watch?v=xJ60grtPdto](http://www.youtube.com/watch?v=xJ60grtPdto)

The short version: ADS-B on, monitor 126.15 and squawk 1237 when within 25 miles of KRDM.

## **Tears Over KBDN?**

I must admit to being confused when pilots over KBDN started saying they were doing a "teardrop entry". Teardrop entries are for IFR, and not in my AIM! But AC\_90-66B, Non-Towered Flight Operations, added the teardrop pattern entry as an addendum in late 2018. So new it is not in the published version. It is basically crossing midfield at 1,500 AGL, the a 270 degree turn onto downwind. Thanks to Mike Klock for educating me.

## **November Fly-Out:**

For those with short memories, our November Fly-out was to Florence. What a wonderful day. 9 planes flew over on a smooth blue day. After bag lunches at the airport, and pleasant chats (socially distant, outdoors) with some locals, a few of us walked into town, and the river. Maybe we'll go back and see Sea Lion Caves this summer?

## **December Fly-out:**

The Weather Goddess granted us a short break in the weather, so several planes flew up to Madras. The FBO was all dressed up for Christmas. What a nice treat! Rob Berg dropped in and chatted with us. Not content, Kim Muinch and Gary Miller flew up the Metolius River, past the pillars. Just to see how rough the air was...

# Bend Municipal Airport

## AIRPORT MASTER PLAN UPDATE

### PUBLIC MEETING

## Planning Advisory Committee (PAC) Meeting #4

Thursday, February 11, 2021

2:00pm-4:00pm

PAC Meeting #4 will be held on February 11, 2021 and provide an opportunity for the PAC, community, neighbors, and other project stakeholders to hear about the progress on the Airport Master Plan at the Bend Municipal Airport. The Development Alternatives will be discussed further and the PAC Preferred Alternative will be identified and confirmed in the meeting.

Airport planning work products will be available at:

[www.bendoregon.gov/airportmasterplan](http://www.bendoregon.gov/airportmasterplan)

Due to social distancing measures and the inability to meet in person, this PAC Meeting will be held **via telephone and internet through Webex**. For online meeting details and to receive a link to the Webex meeting please contact Mike Dane at [mdane@centurywest.com](mailto:mdane@centurywest.com).
